About This Game

NOW PLAYABLE IN NON-VR (KEYBOARD/MOUSE AND CONTROLLER) VR HEADSET NO LONGER REQUIRED.

This original story, based on the mythology of the massively popular PARANORMAL ACTIVITY film franchise, features our proprietary scare engine allowing a different experience every time you dare to play.

Armed with a battery hungry flashlight, you find yourself exploring what appears to be a quiet average looking home in a woody neighborhood. Before long, you discover you're not alone as you discover the clues unraveling the horrifying mystery of what's gone on in this house and struggle to survive the terror that hunts you.

For an even more terrifying experience, switch to the highly popular VR Mode which immerses you in the environment using minimum Room Scale combined with our Immersive Movement Role-play System (IMRS). After the tutorial, you're on your own. Zero onscreen directions or HUD in your face, you're never taken out of the immersion.
